SKILLS

Languages:	Python, R Programming
Frameworks:	Pandas, NumPy, Matplotlib
Analytical skills:	Data Cleaning, Data Summarization, Dashboard Creation, Data Interpretations
Tools/Platforms:	MySQL, MS Excel
Soft Skills:	Problem-Solving Skills, Adaptability
Statistical Skills:	Descriptive Statistics, Hypothesis Testing, Forecasting

PROJECTS

Employee Attrition Analysis using SQL MySQL	May 2026
- Analyzed employee workforce data to identify factors influencing employee attrition and retention. - Wrote 20+ SQL queries using GROUP BY, HAVING, aggregate functions, subqueries, and joins. - Performed department-wise, job role-wise, salary-wise, and overtime-based attrition analysis. - Identified key patterns related to employee turnover and workforce retention. - Generated data-driven insights to support HR decision-making.	

Interactive Superstore Sales Dashboard R Shiny	April 2026
Technologies: R, Shiny, Plotly, ggplot2, dplyr, DT, Forecast, Corrplot	
- Developed an interactive dashboard to analyze retail sales, profit, customer segments, and product performance using the Superstore dataset. - Performed data preprocessing, date handling, and feature engineering for sales trend analysis. - Implemented dynamic filters for Region, Category, Segment, and Date Range to enable interactive exploration. - Created KPI cards to track Total Sales, Total Profit, Total Orders, and Unique Customers. - Built interactive visualizations including sales trends, regional sales analysis, category-wise profitability, customer segmentation, and top-selling products. - Applied ARIMA time-series forecasting to predict sales for the next 12 months.	

Supplier Credit Risk & Cash Flow Analysis Python	April 2026
- Conducted financial analysis of 234 real-world ledger transactions using Python. - Analyzed purchase trends, payment behavior, outstanding liabilities, and supplier credit risk. - Developed dashboards and visualizations for transaction monitoring and risk identification. - Forecasted future outstanding balances using Linear Regression.	

Interactive Data Analysis Dashboard MS Excel	Dec 2025
- Developed an interactive dashboard to organize, visualize, and interpret structured datasets. - Utilized advanced Excel features including formulas, pivot tables, and charts to summarize data and detect patterns. - Designed intuitive visualizations to simplify trend analysis and enable quick comparisons across key metrics. - Enhanced practical expertise in data presentation, analytical thinking, and reporting techniques	

CERTIFICATES

SQL (Basic) Certificate HackerRank	June 2026
Certified in MS EXCEL Simplilearn	Feb 2026
Certified in Introduction to SQL Simplilearn	Feb 2026

EDUCATION

Lovely Professional University	Punjab, India
M.Sc. in Statistics and Data Analytics; CGPA: 8.48	Since August 2025
MCM DAV COLLEGE	Kangra, Himachal Pradesh
B.Sc. Non-Medical (Physics major); CGPA:8.0	August 2022 - May 2025
Green Field Senior Secondary School	Nagrota Bagwan, Himachal Pradesh
Intermediate; Percentage: 80%	April 2021 - March 2022
Green Field Senior Secondary School	Nagrota Bagwan, Himachal Pradesh
Matriculation; Percentage: 87%	April 2019 - March 2020
