Projects

Employee Attrition Analysis using SQL | MySQL

May 2026

- Analyzed employee workforce data to identify factors influencing employee attrition and retention.
- Wrote 20+ SQL queries using GROUP BY, HAVING, aggregate functions, subqueries, and joins.
- Performed department-wise, job role-wise, salary-wise, and overtime-based attrition analysis.
- Identified key patterns related to employee turnover and workforce retention.
- Generated data-driven insights to support HR decision-making.

Interactive Superstore Sales Dashboard | R Shiny

April 2026

Technologies: R, Shiny, Plotly, ggplot2, dplyr, DT, Forecast, Corrplot

- Developed an interactive dashboard to analyze retail sales, profit, customer segments, and product performance using the Superstore dataset.
- Performed data preprocessing, date handling, and feature engineering for sales trend analysis.
- Implemented dynamic filters for Region, Category, Segment, and Date Range to enable interactive exploration.
- Created KPI cards to track Total Sales, Total Profit, Total Orders, and Unique Customers.
- Built interactive visualizations including sales trends, regional sales analysis, category-wise profitability, customer segmentation, and top-selling products.
- Applied **ARIMA time-series forecasting** to predict sales for the next 12 months.

Supplier Credit Risk & Cash Flow Analysis | Python

April 2026

- Conducted financial analysis of 234 real-world ledger transactions using Python.
- Analyzed purchase trends, payment behavior, outstanding liabilities, and supplier credit risk.
- Developed dashboards and visualizations for transaction monitoring and risk identification.
- Forecasted future outstanding balances using Linear Regression.

Interactive Data Analysis Dashboard | MS Excel

Dec 2025

- Developed an interactive dashboard to organize, visualize, and interpret structured datasets.
- Utilized advanced Excel features including formulas, pivot tables, and charts to summarize data and detect patterns.
- Designed intuitive visualizations to simplify trend analysis and enable quick comparisons across key metrics.
- Enhanced practical expertise in data presentation, analytical thinking, and reporting techniques.

Certificates / Certifications

Introduction to MS EXCEL | Simplilearn

Feb 2026

Introduction to SQL | Simplilearn

Feb 2026

Skills

Languages Python, R Programming

Technologies/Frameworks: Pandas, NumPy, Matplotlib, MS Excel, MySQL

Domain Skills: Data Cleaning and Preprocessing, Problem-Solving, Exploratory Data Analysis (EDA), Data Visualization, Statistical Analysis, Hypothesis Testing

Education

Lovely Professional University

2025 – Present

M.Sc. in Statistics and Data Analytics — CGPA: 8.48

Phagwara, Punjab

MCM DAV COLLEGE

2022 – 2025

B.Sc. Non-Medical (Physics major) — CGPA: 8.0

Kangra, Himachal Pradesh

Green Field Senior Secondary School

2021 – 2022

12th — Percentage-80%

Nagrota Bagwan, Himachal Pradesh
